- Press start to activate day pass
- Press OK to confirm
- Device will activate day pass and start the 24 hour countdown.

TROUBLESHOOTING

If you experience a slow down in the speed of the device due to poor connectivity or congestion with the current network due the following to insert a new Virtual SIM Card from a different provider.

PUSH NEW SIM TO DEVICE

- To push a new SIM to device:
 - Menu
 - Advanced
 - Reconnect Network
- New SIM is pushed to device. No need to restart device.

SPECIFICATIONS

Wi-Fi connection

- Connect up to 5 devices with International tethering
- Supports 802.11b/g/n

SIM card

- No SIM required to access global mobile internet service
- Optionally, a SIM can be inserted to support a home carrier plan

Wireless cellular data connection technologies

- HSPA+/WCDMA: 850 / 900 / 1700 / 1900 / 2100 MHz (3G)
- EDGE /GPRS: 850 / 900 / 1800 / 1900 MHz (2G)
- Maximum download speed: 42 Mbps
- Maximum upload speed: 21 Mbps

Security

- Full encryption from the client device through to the cellular network.
- Local data breakout – 3Gmate connects directly to the local cellular network. Unlike roaming solutions with major N American carriers, the data does not necessarily route back to the home carrier before hitting the Internet. (once data hits N America it is subject to deep packet inspection by various entities)
- Authentication is secure – the vSIMs are completely secure and intact as they are used to authenticate on the network. To eliminate tracking even further the user gets a new vSim with every new day pass.
- No end user data is ever sent to or through SimpleTel and its partners.

Power

- 8 hours usage time
- 123 hours standby time
- Micro-USB charger

Size

- 106mm (4.2") x 59mm (2.3") x 13mm (.51")

Included in box

- 3Gmate+
- Battery
- USB cable
